Proposed project title What makes an effective advertising campaign nowadays? \_\_\_\_\_

### Section One: Title, objective, responsibilities

Title or working title of project (in the form of a question, commission or design brief)

What makes an effective advertising campaign nowadays?

Project objectives (eg, what is the question you want to answer? What do you want to learn how to do? What do you want to find out?):

In my project I want to analyse advertising campaigns and see which factors appear to make the most effective adverts, I want to do this by looking at examples such as Donald Trump's presidential campaign and how these campaigns have been successful or unsuccessful and what common things occur in multiple campaigns, also looking at the increased use of social media's impact and importance of branding in advertising. I want to find out if there are certain common denominators and how many adverts are continuing to succeed and adapt to up and coming new technologies and the use of modern technology including what forms of advertising seem most effective for different things and objectives, I want to learn to analyse an advert and investigate what makes it effective or ineffective and improve research skills. How important is it to have part of your advertising on social media, how do you create an effective advertising campaign? Will firms get left behind and lose profit if they don't advertise by use of social media? I would like to learn how to construct a bibliography and create citations.

### Section Two: Reasons for choosing this project

Reasons for choosing the project (eg, links to other subjects you are studying, personal interest, future plans, knowledge/skills you want to improve, why the topic is important):

Mainly I want to look into this because it's a personal interest, marketing and advertising both interest me and the topics don't come up in my A-Level subjects, I want to discover more about it. I will maybe look at its economic impact, use of different languages/international brand, I'm interested in marketing or

advertising and current issues such as social media (young people already spend a long time on social media, will it have a negative impact because they'll spend more time looking at adverts) as I cannot study this in my subjects I thought it would be a good idea to combine the two and find out more. Advertising is a very current topic in society because it uses many different forms of communication which is extremely important in a world with technological advances and new ways to communicate especially taking into account social media and applications such as facebook which are more readily used to advertise now.

### Section Three: Activities and timescales

	How long this will take:
Activities to be carried out during the project (eg, research, development and analysis of ideas, writing, data collection, numerical analysis, rehearsal techniques, production meetings, production of final outcome, administration, evaluation, preparing for the presentation, etc):	
<b>Planning and researching around the proposed title</b> -Initially researching areas of interest around the topic and looking further into what I may want to talk about and planning how to approach the chosen question	8 hours
<b>Write an introduction</b> -Introducing my topic and chosen questions, talking about why I want to look into it and talking about what I will find out	8 hours
<b>Write Literature Review</b> -This is a longer section of my project, I will research and collate information about the topic, I will also select valid and reliable sources talking about theories of advertising and looking at points that specifically make adverts effective and evaluate them. Essentially developing my question	17 hours
<b>Write Discussion</b> -Longest and most time consuming part of the project, I will collate all my ideas and things I have found out in my literature review and discuss examples of adverts or campaigns and ultimately decide on key factors to answer the question.	22 hours
<b>Write the abstract</b> -This involves talking about exactly what I find out in the project and is placed before the introduction	6 hours
<b>Write Conclusion</b> -I will collate all ideas talked about throughout the project including from the literature review and discussion and summarise/talk about the points that i concluded to be answering the question.	8 hours

<b>Write Evaluation</b> -Mentioning everything I have done in the project, including what I would do differently and what I have learn	7 hours
<b>Preparing for the presentation</b>	3 hours
<p>Milestone one: Project Proposal 29<sup>th</sup>Jan 2018</p> <p>Milestone two: 1500 words of research 28th Feb 2018</p> <p>Milestone three: Research review 19<sup>th</sup>March 2018</p> <p>Milestone four: First draft discussion /development 22<sup>nd</sup>June 2018</p> <p>Milestone five: First draft whole project 29<sup>th</sup>Oct 2018</p>	
<b>Section Four: Resources</b>	
<p>What resources will you need for your research, write up and presentation (eg, libraries, books, journals, equipment, rehearsal space, technology and equipment, venue, physical resources, finance):</p> <p>I will need to look at journals from people such as Kaitlin Woodburn and John Powers also books such as ‘Zag” and a variety of websites such as wikipedia or some more specialized advertising ones for my literature review and discussion</p> <p>What your areas of research will cover?</p> <p>I will cover what advertising is, the different forms and types, how important branding is in the literature view and then go on to look at case study examples, key features of effective adverts, how we can measure if an advert is effective or not in my discussion.</p>
